

## English Pronunciation and Content Challenge

### Supercomputer Technology Makes Learning Fun

English pronunciation is essential to every international student’s academic success. The *StandOut*<sup>®</sup> pronunciation challenge harnesses supercomputer interactive technology to make students excited to compete, practice, and improve! Students can also earn points playing the StandOut content challenge – the fun, fast way to gain valuable knowledge about their favorite colleges and universities – and demonstrate to these institutions their high level of engagement and desirability.

### StandOut Engagement Benefits

#### Interactive Learning

Responsive voice-recognition technology is superior to classroom learning because it keeps students engaged, gives immediate and accurate feedback, and provides a scalable method for individualized practice. And, because StandOut makes learning fun, students are encouraged to spend more time developing their language skills and knowledge.

#### Pronunciation Advantage

Strong English pronunciation skills are the foundation of academic and social success for international students. Clear pronunciation improves a speaker’s ability to communicate in an academic setting, represents discipline and accomplishment, boosts self-confidence, and helps international students participate in a dynamic campus culture.

#### Student Engagement

Student engagement is a strong predictor of college readiness and academic success. And it’s an effective tool for overcoming cultural bias in admissions. Through the StandOut content learning game, students demonstrate engagement in their favorite colleges and universities as they gain knowledge from those institutions.
