Admit

## Admit Application Evaluation System

Streamline Your Entire Evaluation Process

Admit manages every step of the college admissions process online, from application submission through evaluation and decision. Admit is fully integrated with *AMCAS*® (American Medical School Application Service), so it's ideal for medical school admissions, too. Enjoy the convenience of anytime, anywhere mobile evaluation. Centralized, automated workflow supports collaborative decisions and helps you get decisions out fast, without printing a single page.

Admit | Benefits

Convenience and Efficiency

Admit automatically attaches each applicant's test scores, recommendation letters, transcripts, portfolio, etc. to their application. No more misplaced or overlooked documents! Authorized viewers can access the system from home, office or out of town.

Collaborative Decision Making

Centralized online viewing and evaluation organizes all viewer comments for each application in one place. Authorized viewers can review all comments and applicant scores, view side-by-side comparisons of applications, and have multiple rounds of reviews.

Robust Reporting Tools

Admit allows you to import data such as test scores from your SIS via XML to update submitted applications. It integrates fully with *ApplyWeb*® and other admissions systems. And its reporting features help you identify, track, and follow up with applicants.

Admit

Admit | Features

Coordinated Evaluation and Scoring

- Accommodates various review processes, including multiple review rounds
- View all comments and scores, and reassign evaluations for second opinions
- Eliminate printing, filing, copying, and circulating – saves time, paper and energy

Individual Department Control

- Each department may configure their own rounds of review for their applicant pool
- Reviewers can easily locate individual applications using filtered search
- Easily assign specific permissions and restrictions for individual users

Automated Sorting and Attachment

- Automatically sort applications, create application pools, and assign to evaluators
- Automatically routes each application to the appropriate department on your campus
- Accepts and automatically attaches test scores, LORs, transcripts, etc. to the application

Full Integration with Other Admissions Systems

- Integrates fully with the ApplyWeb application processing and CRM
- Also integrates with non-CollegeNET admissions systems
- *MedAdmit®* (included) imports medical school admission applications directly into Admit

Convenient and Secure Communication

- Communicate with applicants via CollegeNET's Applicant Portals
- Gives applicants secure, anytime-access to online decisions
- Allows applicants to respond to decisions and submit their deposits online

Customized Data Importing and Reporting

- Provides robust reporting tools to identify, track and follow up with applicants
- Imports data such as test scores from your SIS via XML to update submitted applications

Mobile Compatibility

- Evaluation on a mobile device is even easier than on a computer – and more convenient

Single Sign-on

- Connect via single sign-on from your SIS login
